Introduction

Overview: I am a designer x developer hybrid with good technical and design background who helps close the gap between design and development. Experienced in design systems, user experience / user interface design, and front-end development.

Background: I had got my hand in design and code since 2009 when I self-studied them to create Yahoo! 360 blog themes and WordPress websites. I hold my BFA in Design and I am getting my second bachelor's degree in Tech.

Goal: I'm looking for a product environment to help me improve my skills and learn more about product development process. Furthermore, it will be best if I can work in a UX Engineer role.

Experience

Aperia Vietnam

UI/UX DESIGNER / FRONT-END DEVELOPER, FULL-TIME, APR 2020 - SEP 2022

Working as a designer/developer in design system team. My daily tasks are:

- Create and maintain UI kits in Sketch & Figma.
- Document components (UI specs, behaviors, and storybook) and design patterns.
- Handoff designs to other developers. I prototype complex concepts using HTML/CSS/JS and implement some React components.
- Also, making Figma plugins to help improve design workflow is my favorite task to do.

On the other hand, do some internal work such as:

- Collaborate with Branding team to implement and maintain company website (using WordPress and Tailwind CSS)
- Create some internal tools such as Email Signature Generator, Sketch Cloud files downloader, ...

Samsung Vietnam

UI/UX DESIGNER, FULL-TIME, JAN 2020 - APR 2020

Joined in a new Samsung design team in Vietnam to build apps for IOT devices.

ECOE Vietnam

UI/UX DESIGNER, CONTRACT, MAR 2019 - OCT 2019

Joined to a design team building a new estate platform in Vietnam Market.

Viivue Web Boutique

WEB DESIGNER, PART-TIME, NOV 2018 - MAR 2019

Worked as a part-time web designer for an agency.

Yeah1 Network

GRAPHIC DESIGNER AND VIDEO EDITOR, PART-TIME, DEC 2017 - JUL 2018

Worked as a part-time designer and video editor to support marketing materials, landing pages, and videos for Phở Đặc Biệt.
